What is Dorn Method?

A Wholistic Manual Therapy and True Self Help Method.

The Dorn Method, developed by Dieter Dorn (1938-2011), is a non-manipulative, safe and effective way to facilitate the realignment of the spine and other joints. It is based on natural laws of physics and anatomy and combines Traditional Chinese Medicine Principles/Knowledge with Western techniques and principals. It aims to bring the overall structure and function of the body back to a state of dynamic balance and achieve optimal well-being.

The Dorn Method is a Wholistic Healing Method because it incorporates 3 important factors: Avoidance, Therapy and Self-Help. The simple and effective self-help exercises can facilitate patients' innate recovery process, and provide general maintenance to their structural alignment and prolong the treatment effect. For details please visit www.dorn-therapy.com.

About the Instructor:

Dr. Thomas Zudrell MD(AM), Dorn Method International Specialist and Seminar Lecturer.

Thomas Zudrell has gained his rich experience in Dorn Method from intensive research and the successful treatments for thousands of satisfied patients (from medical missions for the less fortunate to ordinary people around the country to VIP's including senators, congressmen, doctors, lawyers up to the former President Joseph E. Estrada (Erap)).

He is the first who conducts scientific research on the Dorn Therapy with a team of physicians and therapists to better understand the Bio-Mechanics principles behind it. Thomas Zudrell's knowledge in various fields like Manual Therapy, Chiro-Therapy, Healing, Alternative Medicine, Orthomolecular Medicine etc further contribute to the success of his lectures.

He had taught many students in the Dorn Method (incl. Medical Professionals), many of them are running their own successful therapy centers and clinics.
